2018 - 2019 Pre-registration

High School Student Registration Process

All open entry-open exit programs and courses are open for enrollment year-round and students can begin any given day of the week.

For high school students seeking credit the process for enrollment is:

- The student meets with their high school counselor responsible for CTE.
- The counselor determines whether the student has the aptitude to succeed in the program/course (curriculum is generally at an eighth or ninth grade reading and math level), and if the program is eligible for high school credit. (Credit is issued following TCSD's criteria. TTC instructors post grades at mid-term and end of term into the Northstar SIS.)
- The TTech Pre-registration Form is completed and signed by the counselor. (The student's
 parent or guardian's signature is also required and is typically obtained at the time of
 registration.) The form can be faxed to Student Services at 248-1900 or the student can
 bring it with them when they register.
- The Student will need to complete the registration process outlined below.

The registration process includes the following steps:

- o Meet with Student Services advisement personnel
- Provide a completed Pre-Registration Form
- o Complete an Application for Enrollment
- o Identify a schedule
- o Attend the College's Orientation
- Payment for required books/supplies to start the program.
- Once registration is complete the student is entered in the Northstar Student Information System (SIS) and the School Counselor will receive a copy of the student's training plan and schedule for their records.
- The School Counselor can view enrollment, attendance, progress reports and recommended grade reports for their respective students at any time by accessing the Northstar SIS web-based program.
